1.1 Instalación

Tenemos diferentes herramientas donde desarrollar y ejecutar nuestros programas. A lo largo del curso vamos a utilizar las siguientes:

- IDE GUI
- Interactivo
- IPython Notebooks

This is a Title

That has a paragraph about a main subject and is set when the '=' is at least the same length of the title itself.

2.1 Subject Subtitle

Subtitles are set with '-' and are required to have the same length of the subtitle itself, just like titles.

Lists can be unnumbered like:

- Item Foo
- Item Bar

Or automatically numbered:

1. Item 1
2. Item 2

2.2 Inline Markup

Words can have *emphasis in italics* or be **bold** and you can define code samples with back quotes, like when you talk about a command: `sudo` gives you super user powers!

Indices and tables

- *genindex*
- *modindex*
- *search*
